Global Relevance of Diversity, Equity, and Inclusion

The World Young Credit Union Professionals program is a platform for emerging credit union professionals worldwide to connect, share and live the credit union values of cooperation and people helping people. Join us for a virtual event that will connect young professionals from across the globe. This session will discuss the ever-important topic of Diversity, Equity and Inclusion. Using the global perspective, how can we better advocate for humans, institutionalize inclusion and ensure equities to all our member communities. You will hear from global friends and experts Brian Branch, Paul Treinen, Brandi Stankovic, Stacey Walker and Gisele Gomes.

Changing the World through Youth Engagement

In this virtual event you will hear from the 2019 scholarship recipients from around the world talk about the lessons learned, plan for the future, and how WYCUP impacted their journey. We will also be hearing from the team at WOCCU, Paul Treinen and Thom Belekevich, about how global credit unions are creating member engagement through youth committees.
Leading Forward Through Adversity

During this time of immense change, credit unions need strong, logical and calm voices to navigate forward. Join us for this session, Leading Forward Through Adversity, from eLeadership Academy’s Sandra McDowell, an expert in the applied neuroscience of leadership. You will learn why fear impairs the brain, and how to refocus to boost positive impact and wellbeing. We will discuss how to RESET your mind and REFRAME your focus on the most productive actions you can take to benefit you and your team.

Empoderando a Jóvenes para Cambiar el Mundo

Este intercambio virtual explorará iniciativas impactantes que las cooperativas financieras en varios países han implementado para empoderar a jóvenes, fortalecer el desarrollo profesional y promover la sostenibilidad de sus comunidades. Acompáñenos durante una sesión que explorará cómo las cooperativas pueden redefinir su relación con jóvenes y crear comunidades más resilientes.
